## **Regency Fireplace Products Adds Modern Style to Small Space Design**

*The All New Regency Horizon™ HZ30E Gas Fireplace*

---

**DELTA, British Columbia (May 24, 2010)** - The newest addition to Regency's Contemporary Collection is the perfect complement to modern design and functional living. The Regency Horizon™ HZ30E gas fireplace is specifically designed for homeowners wanting to transform a small living space into a contemporary room for both style and comfort. The Regency Horizon line of gas fireplaces has proven to be an industry favorite; identified by the simple yet sophisticated design and impressive flames that sit on a full length firebed of crystals or spa stones. A smaller profile of the popular Regency Horizon models, the new HZ30E unit features the same sleek wide view design set in a seamless frame. Because it is just 14 ½" in depth, it is a warm addition without taking up too much space and provides efficient mid level heat output for just the right amount of warmth well suited to the space.

Today's fireplaces go beyond their original function of providing heat, Regency's HZ30E offers endless style options that can be easily integrated into any small living space. You can add tasteful surrounds to suit your style in a variety of modern finishes or enjoy a clean finish with no louvers or faceplates. Whether you are updating a small apartment, master bedroom or ensuite bathroom, this is the ideal unit designed to suit these spaces. Finally, whether you prefer the convenience of a continuous pilot or the cost savings of electronic ignition, Regency offers both.

For more information, including an online Fireplace Design Center and to locate a Regency Dealer, homeowners can visit [www.regency-fire.com](http://www.regency-fire.com). To request high-resolution photos for media use, please email [media@regency-fire.com](mailto:media@regency-fire.com).

**About Regency Fireplace Products:** Regency Fireplace Products is a preeminent wood, gas and pellet fireplace and freestanding stove manufacturer in North America.
